

## CONFETTI MAINTENANCE GUIDE

Terrazzo consists of chips of marble, quartz, granite or glass poured with a cementitious binder.

**Maintenance:** Always remove stains immediately after staining. Terrazzo should be cleaned with a neutral detergent that does not contain acid or alkaline. Apply a non-stainable impregnating oil-repellent and hydro-repellent product (available at most hardware stores) with a brush or cloth. This will seal and protect the surface.

**Materials:** 100% Terrazzo
